

OUR COMPANY'S QUALITY MANAGEMENT POLICY

Nylon Knitting's Management ensures the implementation of Quality Management – key principle of its strategy – through the following measures:

- anticipating and meeting internal and external stakeholders' expectations all over the world, thanks to the high competence and professionalism of its collaborators;
- promoting our quality-and-ethics-oriented corporate culture to the internal and external community, thanks to its constant and targeted communication and to the formation and motivation of its collaborators;
- relying on constant dialogue, timely answers and cooperation with our customers and suppliers, considered as strategic partners with a view to developing together and to meeting market and consumers' expectations;
- achieving continuous evolution and innovation of products, service, process and systems in order to ensure excellence and to guarantee customer satisfaction by taking the following measures:
 - respecting the contractual requirements agreed on, meeting specific technical requests, abiding by the laws in force through the prevention and respect of the rules established by our Quality System in improvement (ISO 9001);
 - ensuring the environmental sustainability of the production process and respecting the international environmental standards for fabrics;
 - complying with the Environmental and Safety regulations by promoting health and safety in the workplace and by ensuring environmental sustainability along the whole product life cycle;
- Developing human resources' skills and professionalism as well as the sense of belonging to the company at all levels of the organization, by promoting relations between different departments in compliance with Nylon Knitting's code of conduct and the 10 principles of the UN GLOBAL COMPACT;
- Identifying, communicating and reaching concrete, shared and measurable objectives to use as guidelines to manage each department.

The Management Board constantly monitors Customer Satisfaction and Claims Management, as well as all the activities and resources needed to implement the Quality Management Policy.

It also undertakes to guarantee that the objectives are always coherent with the needs and the expectations of all interested parties and it commits to periodically review the Quality Management System in order to constantly improve its effectiveness and efficiency.

General Manager  D. Cortinovis	Date 21 March 2019	Chief Executive Officer  G. Pezzoli
